

PRODUCT INSTALLATION INSTRUCTION MANUAL

MODELLO: GDU8825

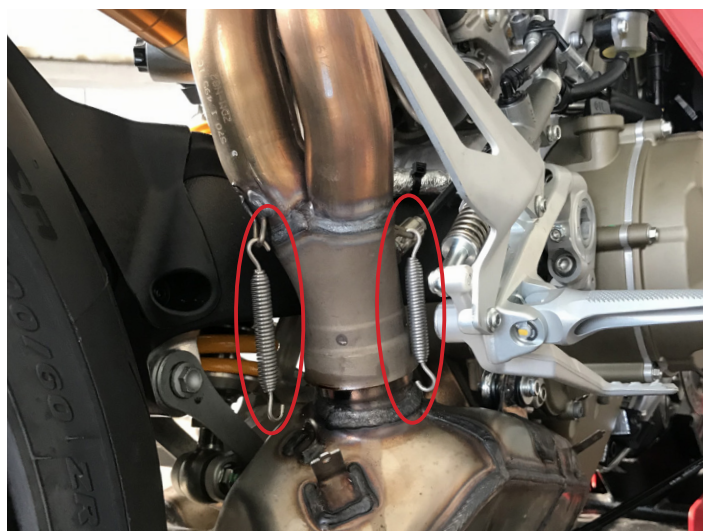

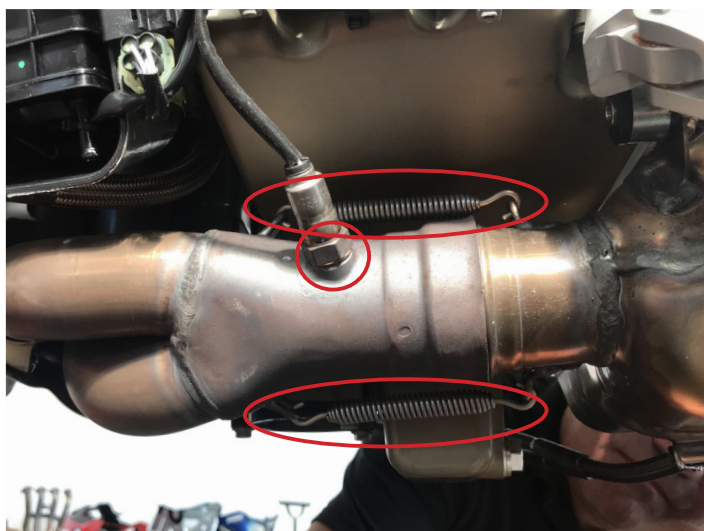

1. Svitare i bulloni che tengono fissati i fili della valvola originale e rimuoverli dal supporto posto al lato della moto.

1. Unscrew the bolts that hold the threads of the original valve in place and remove them from the support placed on the side of the bike.

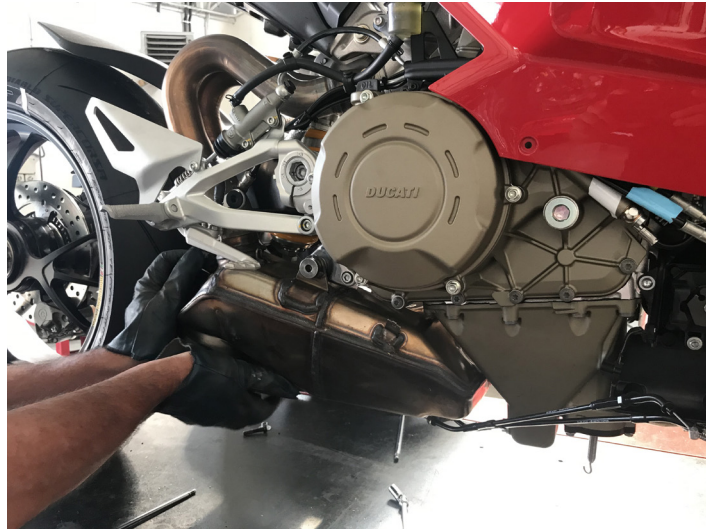

2. Rimuovere le molle originali e svitare la sonda lambda.

2. Remove the original springs and unscrew the lambda sensor.

3. Svitare i bulloni dello scarico originale e rimuovere lo scarico.

3. Unscrew the original exhaust bolts and remove the exhaust.

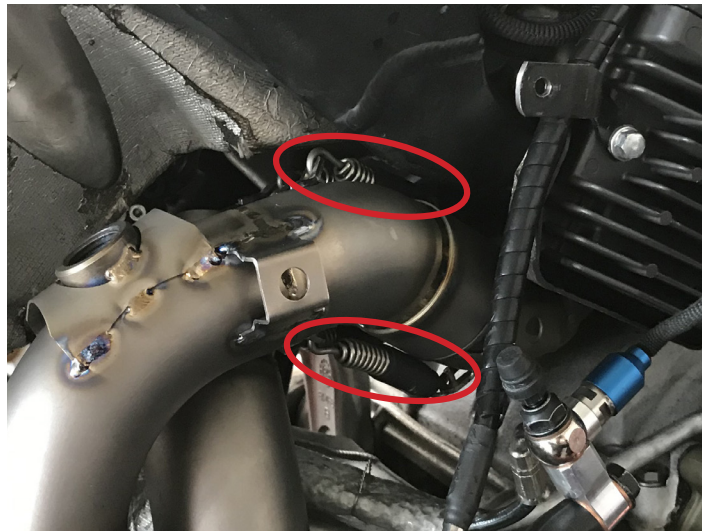

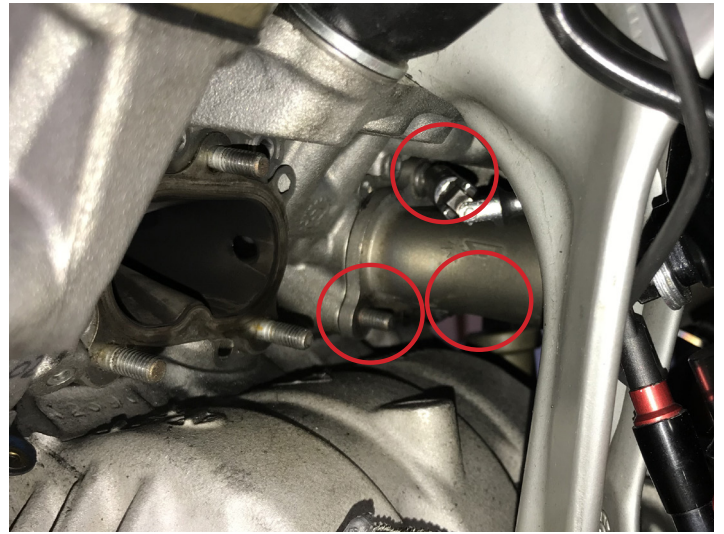

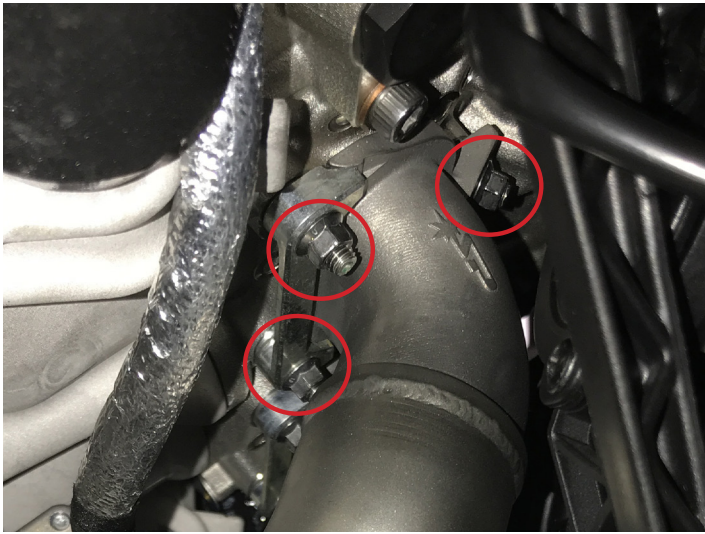

4. Svitare i bulloni dei collettori originali e rimuoverli.

4. Unscrew the bolts of the original manifolds and remove them.

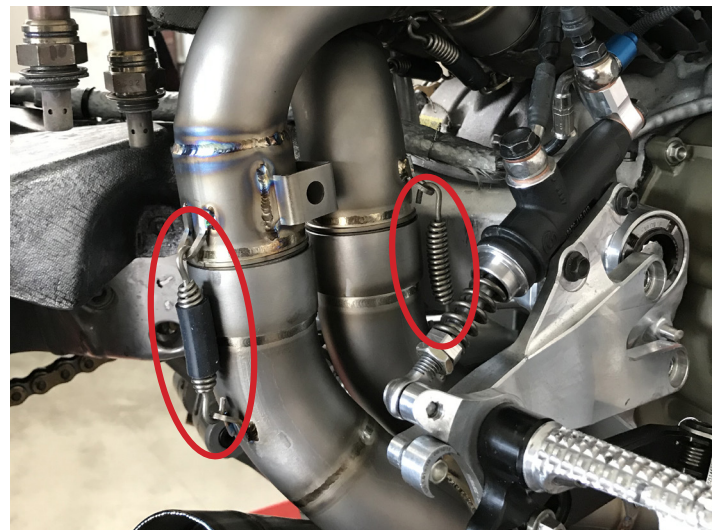

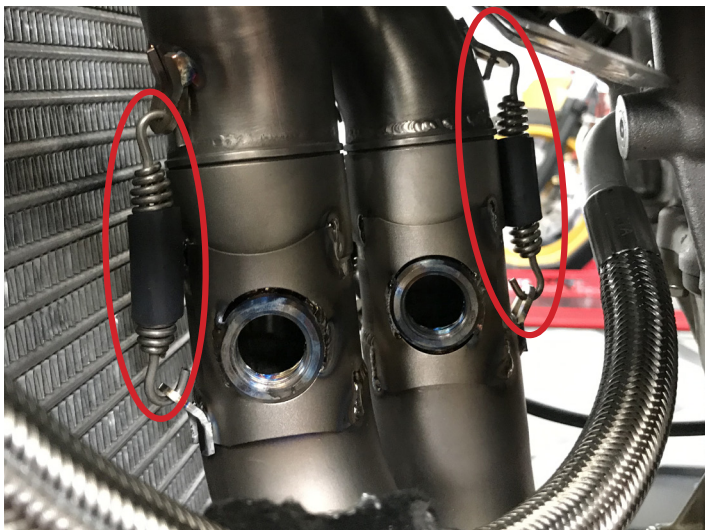

5. Installate le bocchette Spark ed avvitate i 6 bulloni originali non stringendoli completamente, successivamente inserire la prima parte dei collettori e tirare le molle.

5. Install the Spark vents and screw in the 6 original bolts not tightening them completely, then insert the first part of the manifolds and pull the springs.

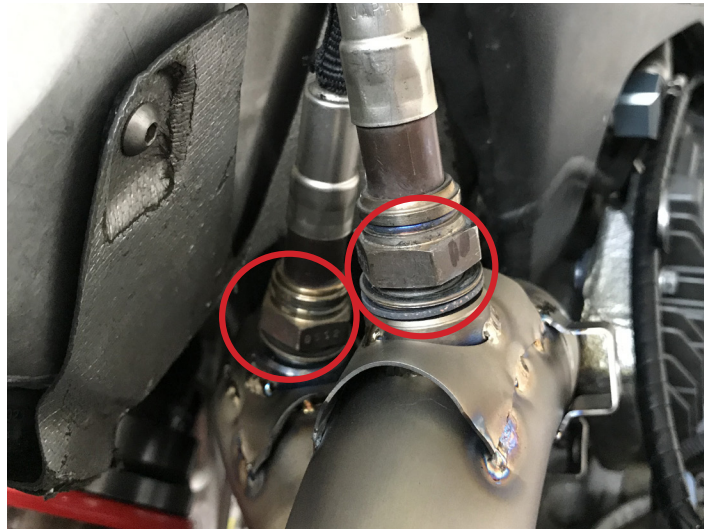

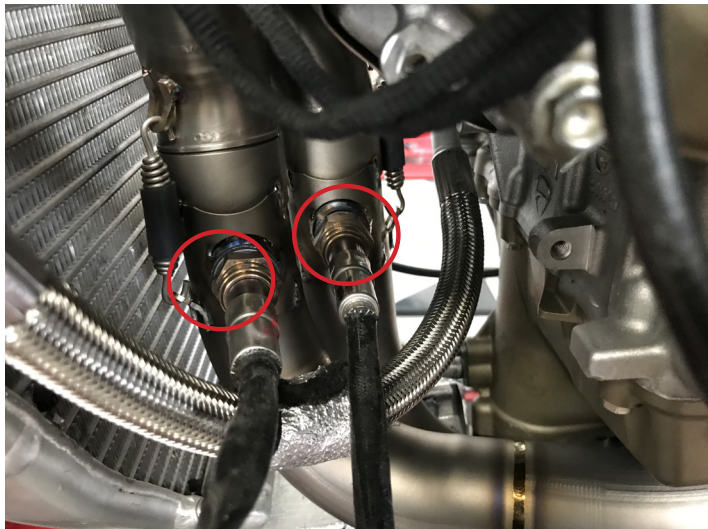

6. Innestare i raccordi nei collettori e assicurarsi di agganciare tutte le molle.

6. Engage the fittings in the manifolds and be sure to hook all the springs.

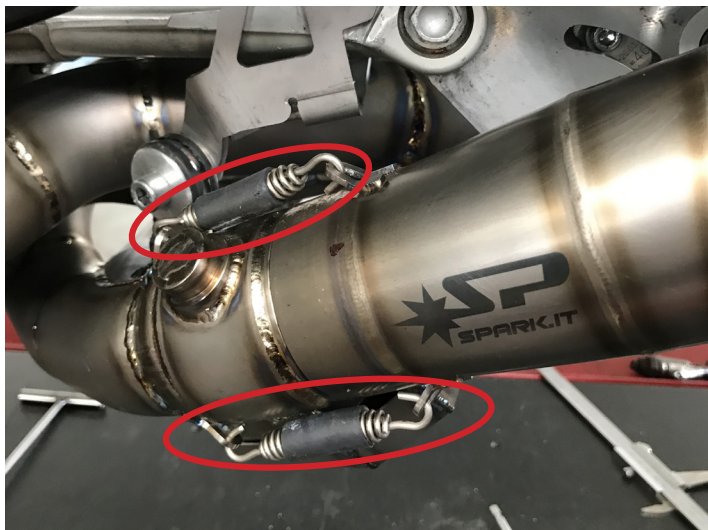

7. Avvitare le sonde lambda.

7. Screw on the lambda sensors.

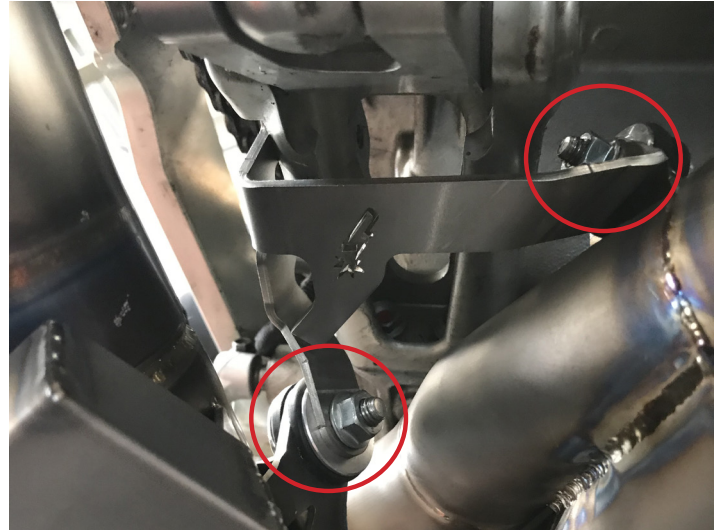

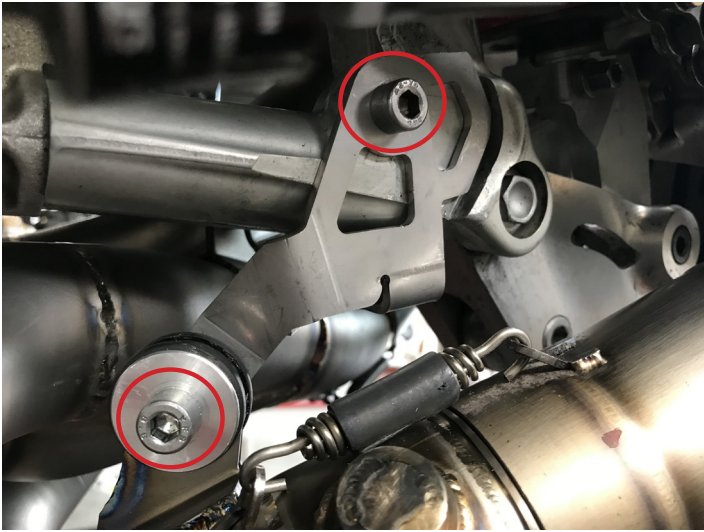

8. Inserire i silenziatori ed agganciare le molle.

8. Insert the silencers and hook the springs.

9. Avvitare la staffa telaio utilizzando i distanziali in dotazione.

9. Screw the frame bracket using the supplied spacers.
